EXPERIENCE

- ❖ **Software Engineer Intern | NITD, Noida** *(May '23-Jul '23)*
  Wrote frontend & backend APIs for building a delivery-based web application, performed Unit tests and developed a CI/CD integration project – Python & Django.

EDUCATION

- ❖ Computer Engineering | Guru Tegh Bahadur Institute of Technology, Delhi *(May'20-jul'23)*
- ❖ XII (UP BOARD) | T.S Inter College Paraspur Gonda, UP *69% |2020*
- ❖ X (UP BOARD) | S.S Mandir Inter College Paraspur Gonda, UP *75%|2018*

SKILLS

- ❖ C, C++, CORE JAVA, CSS, HTML, JS.
- ❖ PYTHON & DJANGO.
- ❖ MS Office

ACADEMIC PROJECTS

- ❖ **Making Employee management system**

I am creating it by Python and Django framework (Back-end) This project about Implemented CRUD functionality in a Python-based employee management system, leveraging the Django framework to streamline data handling and increase administrative efficiency.

- ❖ **Amazon Clone**

Developed a fully functional Amazon clone using HTML and CSS, demonstrating strong front-end web development skills and e-commerce application knowledge.

- ❖ **Movie Ticket Booking System**

The Movie Ticket Booking System is a Java-based application designed to provide users with the ability to select and book movie tickets. The system allows users to choose seats, manage multiple theaters and showtimes, and ensures ticket availability. By implementing seat selection algorithms and robust management features, this system aims to enhance the movie ticket booking process for users.
